The table below lists all species for which records have been found within the search area. The date refers to the most recent occurrence for each species. For searches for all species records, grey shading denotes species which have one or more notable or protected designations. Notable and protected species designations are based on the Joint Nature Conservation Committee (JNCC) Conservation Designations for UK Taxa (July 2018) <http://jncc.defra.gov.uk/page-3408>
